

MULTIPURPOSE & EFFICIENCY

THE MOBULA 8, A HIGH-PERFORMANCE DEPOLLUTION SOLUTION

CLEANING CAPACITY:

15,000 m² per hour

WASTE COLLECTION:

up to 0.4 m deep below the surface

COLLECTION RANGE:

4 m wide

SUCTION:

2.5 to 4 m upstream of the vessel

WASTE SORTING

on board

LIQUID WASTE

STORAGE CAPACITY:

600 litres

SOLID WASTE

STORAGE CAPACITY:

5 to 8 m³ (2,400 kg)

THE MOBULA 8, A MULTIPURPOSE DEPOLLUTION SOLUTION CAPABLE OF COLLECTING:

- floating macrowaste
- microwaste for scientific purposes
- liquid waste (oils, hydrocarbons...)

**SIMULTANEOUS RECOVERY
OF SOLID AND LIQUID WASTE**

STRENGTHS & MANEUVERABILITY OF THE MOBULA 8

OPERABLE

with a crew of 3 people

REDUCED SIZE:

9,20 m length x 3,40 m width

MEAN DRAUGHT:

0,80 m

TRANSPORTABLE:

by trailer or container for cost reduction

FAST:

switches from navigation to clearance mode in 2 minutes

LOW

operating and maintenance costs

MINIMIZED

environmental impact

THE MOBULA 8, DESIGNED FOR CALM AND PROTECTED WATERS, SHALLOW OR INACCESSIBLE AREAS

- rivers and canals
- rivers with little agitation
- mangroves and lake areas
- coastal areas
- at sea up to 5 miles from the coast
